

## Contestant Information 2022

We appreciate you putting your trust in our competition. It is our ongoing mission to be the fairest and most comprehensive cannabis championship it can be. Our judging is and always will be completely fair, unbiased and educated. We will hand-select judges from across the state via an application process on our website. This year we are stoked to announce our partnership with the one and only Ganjier. Ganjier will bring their expertise to the flower categories in our competition this year making this championship the most comprehensive in the nation. Our judges in normal fashion will select the top 15 in each of the three categories. We will then convene with certified Ganjiers and run these top performers through their S.A.P. cannabis grading software to decide the top three overall. We are also excited to have back 2 of the highest qualified people in Swami Chaitanya and Nikki Lastreto who will be tasked again with training our judges. We have decided to add a few new awards this year including "Best Of" in 5 separate terpene profile categories for indoor flower and sun-grown flower. **Myrcene, Humulene, Limonene, Pinene and Linalool** are the categories. Please select which profile best fits your flower entry and include that on your entry information sheet to qualify.

In our best efforts to have a diverse judging panel some of the judges we select will work in the industry and some will simply be patients. Judges with affiliation to any contestant will not be accepted. This year there will be at least 14 Judges per major category. (Sungrown Flower, Indoor Flower, Pre-rolls, Solventless Hash, Solvent Hash, Carts and Edibles with Tinctures and Topicals) Our judges will receive blind, coded samples for each entry with the exception of the edibles, carts and tincture categories which will be "branded" categories in this year's competition. In our best efforts to make sure the judges receive the samples in the same condition in which they were submitted, we have partnered up once again with Custom 420 Northeast to provide quality packaging.

**Entries absolutely must be submitted with all of the required information as directed below. We will not take late testing or payment for any reason.** Last year we had 480 competition entries. We work very hard to make sure the products get to the judges as quickly as possible so as to retain their integrity. In order for this to happen it is a must to have all of the documentation at the date of drop off. We will do our best to provide you with the means to collect missing information at the drop off location with Wifi, Printer etc. **PLEASE NOTE:** Every year some contestants send their products to drop off using a transportation company. The Transport companies are always missing something. **MAKE 100% SURE** that your transport agent has everything they need and are aware they are transporting a competition entry and will need a bit more paperwork than usual and may need to drop off payment. We want everyone to get there entries in but will not accept any part of your entry, documentation, or payment late for any reason. Thank you for your cooperation.

With each entry you receive (1) weekend pass to the event. Your wristband and contestant badge will be available at our will call / vendor information booth the weekend of the event. See you at drop off!!
